

BEEF BOOSTER 18

Registration No: V 15249 Act 36 of 1947

Class: Protein-Mineral-Trace Mineral-Energy Supplement for Ruminants Form: Meal / Pellets

Description

Beef Booster 18 is a ready mixed protein mineral trace mineral energy supplement for:

- 1. Rearing of heifers and ewes on high quality roughage and green veld or pastures;
- 2. Rearing and finishing of weaners and lambs on green veld and pastures;
- 3. Grasslotting;
- 4. Creep feed for calves and lambs.

Benefits

- Stimulates fibre digestion.
- An energy dense supplement that contains high levels of natural protein.
- · Contains specialised additives to improve feed efficiency.
- An ideal supplement to enhance growth of young replacement male and female ruminants.
- · Maximise the growth of weaners and lambs for maximum profit.

Feeding Recommendations

Beef Booster 18 is a ready mixed product that can be fed out of the bag without any further mixing. The product is intended for growing cattle and sheep post weaning, with free access to high quality roughage, summer veld or pastures.

Type of animal	Recommended Intake (g/animal/day)		
	Minimum	Maximum	
Cattle	1 200	1 500	
Sheep	250	300	
Growing heifer	1 200	1 500	
Ewes	225	300	
Grasslotting weaners	1 200	1 500	
Grasslotting lambs	225	250	

Composition

Nutrient	Quantity	Unit	Min/Max
*Protein	180	g/kg	Min
Urea	20	g/kg	Max
Moisture	120	g/kg	Max
Calcium	8	g/kg	Min
Calcium	24	g/kg	Max
Phosphorus	8	g/kg	Min
Sulphur	5	g/kg	Min
Magnesium	5	g/kg	Min
Vitamin A	9 000	IU/kg	
Manganese	150	mg/kg

Nutrient	Quantity	Unit	Min/Max
Copper	18.75	mg/kg	
Cobalt	0.38	mg/kg	
Zinc	150	mg/kg	
lodine	1.88	mg/kg	
Selenium	0.5	mg/kg	
Lasalocid	255	mg/kg	
Zinc Bacitracin	150	mg/kg	

^{*39.3 %} derived from NPN

This product contains NPN sources - see NPN warning

Warning

This product contains ionophores and must not be fed to horses.

NPN Warning

This feed may contain feed-grade urea / NPN sources and thus must be mixed and fed strictly according to recommendations:

- 1. Vinegar is an effective remedy against NPN (non-protein nitrogen) poisoning. Mix with equal amounts of water. Dose half a bottle per calf or large sheep or 2-4 bottles per head of cattle. (1bottle = 750ml)
- 2. Protect these feeds against rain. NPN is soluble and animals drinking such a solution can be poisoned.
- 3. Do not feed these feeds indiscriminately with other feed containing NPN. Consult an animal scientist.
- 4. Mix concentrates thoroughly with the prescribed ingredients.
- 5. This is a supplement and not a feed. Sufficient grazing and/or roughage must be available at all times.
- 6. Ensure that feed troughs are always full and give animals free access to grazing.
- 7. A salt-phosphate lick must be fed for a minimum of seven days prior to feeding any animal a NPN containing lick.
