

CLASSIC BROILER GROWER

Registration No: V 17142 Act 36 of 1947

Class: Broiler Grower Feed

Form: Pellets / Mash / Crumbles

Description

The Classic Broiler range has been specifically designed for medium-sized producers who produce broilers between 6 and 8 weeks of age. The rations in this range, except the post-finisher, include a coccidiostat and a growth enhancer.

Benefits

The Classic feeding programme was formulated to optimise performance for medium-scale enterprises, considering environmental conditions and average-to-low stocking density.

Feeding Recommendations

The grower ration should be fed to broilers from 19–28 days of age. The approximate feed consumption should be 1 200 g per bird. The ration may be fed through to term, but this is not advisable.

Expected Intakes

The approximate feed consumption should be 1 200 g per bird.
