

PHASE C STUD CATTLE FINISHER

Registration No: V 24301 Act 36 of 1947

Class: Cattle Finisher Feed

Form: Cubes

Description

- A complete feedlot diet of high-quality sources of protein, energy and fibre.
- Maximum 15.5% of protein derived from NPN.

Benefits

- Balanced amino acid profile.
- Manipulated fibre fractions.
- High energy density.
- Synchronised utilisation of protein and energy in the rumen.

Feeding Recommendations

- During the first week additional roughage must be fed to facilitate adaption.
- Feed ration ad-lib with free access to roughage.

This product contains NPN sources - see NPN warning

Warning

This product contains ionophores and must not be fed to horses.

NPN Warning

This feed may contain feed-grade urean / NPN sources and thus must be mixed and fed strictly according to recommendations:

1. Vinegar is an effective remedy against NPN (non-protein nitrogen) poisoning. Mix with equal amounts of water. Dose half a bottle per calf or large sheep or 2-4 bottles per head of cattle. (1bottle = 750ml)
2. Protect these feeds against rain. NPN is soluble and animals drinking such a solution can be poisoned.
3. Do not feed these feeds indiscriminately with other feed containing NPN. Consult an animal scientist.
4. Mix concentrates thoroughly with the prescribed ingredients.
5. This is a supplement and not a feed. Sufficient grazing and/or roughage must be available at all times.
6. Ensure that feed troughs are always full and give animal's free access to grazing.
7. A salt-phosphate lick must be fed for a minimum of seven days prior to feeding any animal a NPN containing lick.
